

Notice of Policies and Practices to Protect the Privacy of Patients' Health Information

THIS NOTICE DESCRIBES HOW PSYCHOLOGICAL AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

I. Uses and Disclosures for Treatment, Payment, and Health Care Operations

Dr. Quintal & Associates, may *use or disclose* your *Protected Health Information (PHI)* for the purposes of *treatment, payment, and health care operations* with your *consent*. The following definitions clarify these terms:

“**PHI**” refers to information in your patient record that could identify you.

“**Treatment, Payment and Health Care Operations**”:

Treatment is when Dr. Quintal & Associates provides, coordinates or manages your health care and other services related to your health care.

Payment is when Dr. Quintal & Associates obtains reimbursement for your health care. Examples of payment are when your PHI is disclosed to your health insurer to obtain reimbursement for your health care or to determine eligibility or coverage.

Health Care Operations are activities that relate to the performance and operation of this business. Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and care coordination.

“**Use**” applies only to activities such as sharing, applying, utilizing, examining, and analyzing information that identifies you.

“**Disclosure**” applies to activities outside of this business such as releasing, transferring, or providing access to information about you to other parties.

II. Uses and Disclosures Requiring Authorization

Dr. Quintal & Associates may use or disclose PHI for purposes outside of treatment, payment, and health care operations when your appropriate authorization is obtained. An “*authorization*” is written permission above and beyond the general consent that permits only specific disclosures. In those instances when information is sought for purposes outside of treatment, payment and health care operations, an authorization will be obtained from you before releasing this information. An authorization is also necessary before releasing your psychotherapy notes. “*Psychotherapy notes*” are notes made about conversations during a private, group, joint, or family counseling session, which are kept separate from the rest of your patient record. These notes are given a greater degree of protection than PHI.
